

Promise Me The Sky

Promise me the sky

I will take it through my life

Cut this days and nights

I will never feel alright

Promise me the stars

I will choose a Mars

In a red blood dress

To you I confess

Promise me your god

I can't live without

Every single chance

To use my defense

Promise me your heart

I will take my part

To show the mean of things

And the sense they brings

Promise me the sky

Promise me the sky

Promise me the sky

Promise me the sky

Promise me the sky

...
